

REMARKS

Applicants acknowledge that prosecution of this application on the merits has been closed in accordance with the practice under *Ex parte Quayle*, all claims having been found allowable or directed to allowable subject matter. In particular, Claim 7 has been allowed, while Claims 5 and 6 have been indicated to recite allowable subject matter, subject to the matters set forth below.

Claims 5 and 6 have been objected to based on certain formal issues identified in paragraph 6 of the Office Action. In response to these grounds of objection, Applicants have amended the claims in the manner suggested by the Examiner. Accordingly, reconsideration and withdrawal of these grounds of rejection are respectfully requested.

The drawings have been objected to on the grounds that Figure 3 appears to show an incorrect torque transmitting path, for the reasons articulated in paragraph 4 of the Office Action. In response to this ground of objection, as indicated in paragraph 5 of the Office Action, Applicants have submitted herewith a Replacement Sheet in which the torque path in Figure 3 has been corrected in the manner suggested by the Examiner. Accordingly, reconsideration and withdrawal of this ground of objection is also respectfully requested.

Amendments to the Drawings:

The attached sheet of drawings includes changes to Fig. 3. This sheet, which also includes Fig. 2 is amended to correct the torque path in Figure 3.

Attachment: Replacement Sheet
